

NEURONUS 2013

IBRO & IRUN NEUROSCIENCE FORUM

MAY 9-11 2013, KRAKOW, POLAND

IBRO&IRUN NEUROSCIENCE FORUM

NEURONUS

To continue the great success of last year's edition, awarded in the "StRuNa" competition organized under the patronage of the Polish Minister of Science and Higher Education, the Organizing Committee has the pleasure to invite you to the NEURONUS 2013 IBRO&IRUN Neuroscience Forum, covering all aspects of neurosciences, from neurobiology via cognitive neuroscience to clinical neuroscience. This event will be held from 9-11 May, 2013 in the Auditorium Maximum of Jagiellonian University in Krakow, Poland.

Three very intensive days of keynote lectures, oral symposia, and poster presentations are planned, divided into biological and cognitive neuroscience slots. Moreover, NEURONUS 2013 will be opened by a special session commemorating the 150th anniversary of Adolf Beck's birthday, a pioneer of electroencephalography born in Krakow. The regular scientific programme will be accompanied by the Scientific Career Opportunities session, and evening social events
